2022/4/26	V1.0	First draft	Zhang Dao

Overview

As a professional, user-friendly and cost effective dash camera with built-in AI processor, ZenduCAM ADAS D+1 detects risky driving events such as lane departure warning, forward collision warning and headway monitoring warning, as well as unsafe driving behaviors such as unfastened seatbelt, using mobile phones, yawning, distraction and smoking. In addition, it can remind drivers of unsafe driving behaviors in real time and upload driving events to a monitoring platform that can be reviewed by fleet managers to help fleets guide drivers and reduce traffic risks.

Highlight

- 1080P resolution with 96° DFOV for ADAS, 1080P resolution with 170° DFOV for DSC
- Support up to 3-channel video recording, H.264/H.265 video coding
- Dual Micro 256G SD card storage, supporting dual-stream recording
- Built-in Wi-Fi and 4G module
- Support 4-channel I/O input, 1 channel CAN and 1 channel RS232
- Compact Design
- Support OBD powering, easy installation
- Built-in ADAS and DSC, supporting AI event detection (up to 2-channel)
- Support sleep mode, remote wake-up(power consumption less than 0.1W)
- Support echo suppression algorithm to improve the quality of two-way voice intercom
- 6-axis gravity sensor detects intense driving behaviors (Harsh Acceleration, Deceleration & Sharp turn)

Active Safety Features

ZenduCAM ADAS D+1 uses machine vision-based on Video Analysis technology to automatically identify road risks and drivers' unsafe driving behaviors. Detected events will trigger audible and visual reminders to alert drivers in real time, event recordings will be uploaded to the cloud simultaneously.

ADAS Features

LDW(Lane Departure Warning)

HMW(Headway Monitoring Warning)

FCW(Forward Collision Warning)

DSC Features

Unfastened seat belt

Using mobile phone

Yawning

Optional accessories for active safety DMS Features

DMS

Driver Notifier (R-Watch)

zzz

Lens Covered

Distraction

No driver detected

Phone Call

Unfastened seat belt

Smoking

Yawning

Specifications

Product Model: Z	ZenduCAM ADAS D+1	
System	Embedded Linux	
Language	Support Chinese, English, Spanish, Portuguese, French, Russian, Japanese
