Zone Defense's Black Box DVR is a powerhouse in small form factor. It has all the bells and whistles you expect in the larger, more expensive DVRs but its small size makes for easy use and installation.

With GPS tracking & mapping, as well as event recording, this powerhouse DVR has it all. Supporting up to 4 SDHC memory cards, it has a locking feature to make the card slot tamperproof. With 4 camera and audio capability, this DVR integrates perfectly with all Zone Defense® systems.
