

Mobile Trax | Driver Tracking

Easily Track Your Drivers From Their Existing Smartphones | Increase Productivity

Mobile Trax makes vehicle tracking easier and more affordable. Track your fleet and mobile workforce through their existing smartphones without having to purchase expensive telematics devices. Know where your drivers are 24/7, increase productivity, safety, and revenue. Simply install the mobile application for iOS or Android on your drivers' phones and start tracking!

Mobile GPS Vehicle Tracking

Track your vehicle's location and speed in real-time anytime, anywhere.

Track From Anywhere, Anytime

Easily access your dashboard from your smartphone, tablet, or computer, to easily access all your fleets important information.

Instant Notifications

Get notified in real-time via email or text once a driver has entered a certain zone or completed a delivery.

Android / iOS Solution

No need for expensive hardware or complicated installation. Start tracking drivers immediately through their existing smartphones.

Live Map View

View all your vehicles on the map in real-time – in case of an emergency send the closest driver to the emergency location.

Scalable To Your Needs

No matter the size of your fleet, whether it's 1 to 2000, our solution can fit your needs.
