## ZenduCAM

### Intelligent and Powered Dash Camera Series

ZenduCAM dash camera has assisted us in reducing driving incidents by **20%**. With ZenduCAM's driver scorecard and incentive programmes, we have noticed a decrease in driving incidents as well as an increase in drivers' general conduct.

Burnbrae Farms

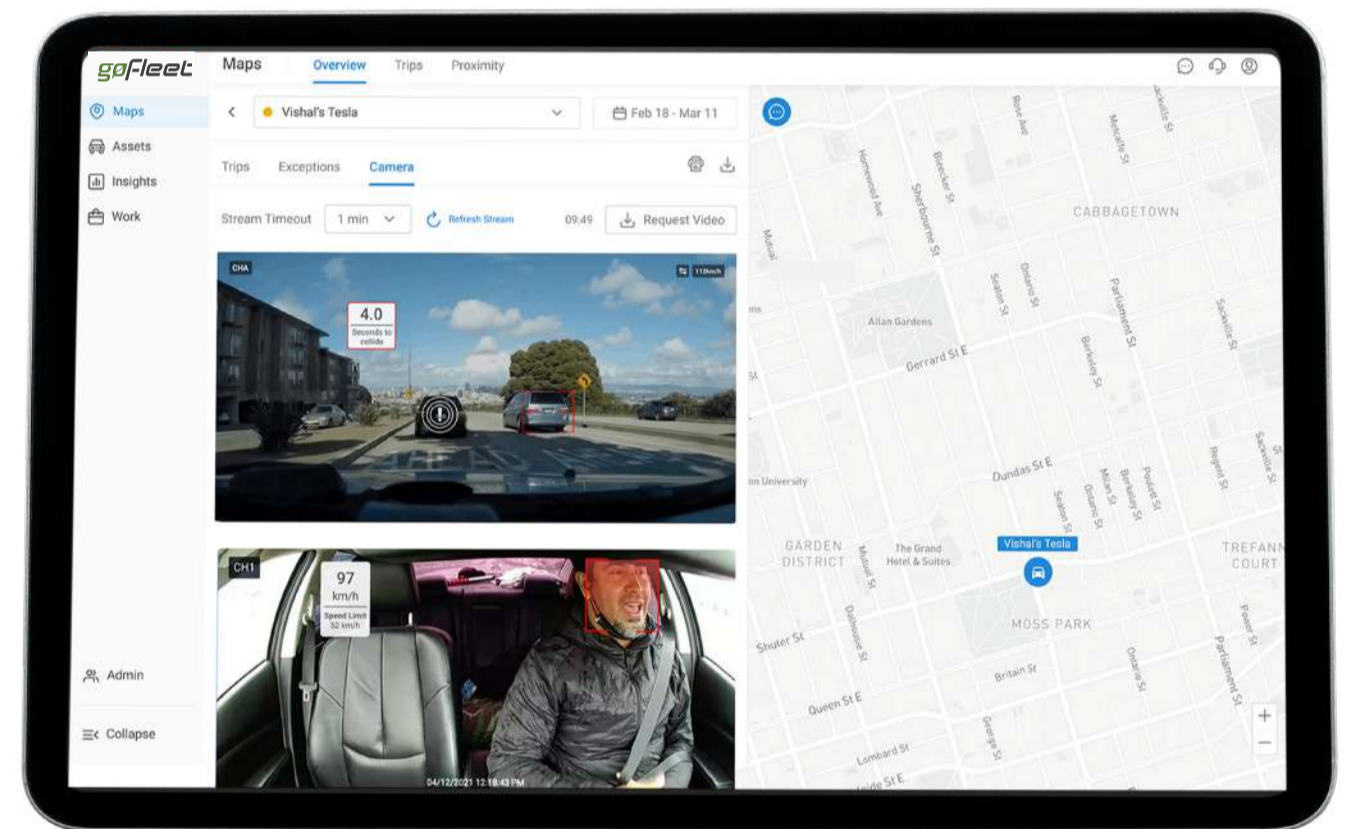

Seat Belt Detection

Track driver behavior to **make driving safer** and much more

ZenduCAM from Gofleet is our best-in-class Intelligent Cloud-Based Dash Camera Solution that collects and analyses data from connected fleets using the power of AI and advanced driver-assistance systems (ADAS) technologies. The scalable platform allows fleet managers to maintain complete control over their resources by offering detailed insights on fleet location, driver behavior, engine diagnostics, and fleet activity.

ZenduCAM's Dash Cameras are powered by an industry-leading AI processor and advanced ADAS and DSC algorithms, that helps fleet managers reduce accidents, detect unsafe driving, and provide real-time feedback and coaching with unrivaled accuracy and speed.

## Key Features

### Inbuilt Driver Communication and Coaching:

Built-in mic and speaker with echo and noise-canceling features to provide instant audio-visual feedback

### Easy Installation with Multi-channel Connectivity

Rugged and compact exterior shell with plug-and-play installation capabilities along with seamless 3rd party sensor, and camera integration

### Enhanced DSC and Face AI Features

Built-in AI processor and fully HD road and driver-facing lens, along with DSC, and Face AI capabilities to capture and analyzes critical driving violations

### Alerts on irregular events

Such as entering/leaving predefined Geo locations, unauthorized vehicle operation, driving during off hours, etc.

### Real-Time Reporting of Distraction Events

Advanced GPS and ADAS technology along with 6-axis gravity sensor to detect and record high-risk events

### 24x7 Audio with Video Capture and Backup

Built-in Wi-Fi and cellular capabilities to access real-time video footage long with cloud backup facilities to store critical video footage

## Benefits

Reduction in accidents caused due to driver distractions

Real time visibility into driver behavior and real time communication to improve driving behaviors

Avoid false insurance claims & exonerate drivers with video evidence stored on cloud

Curated dashboard to get reports on fleet performance, fuel usage, driver performance and so on.

## Dash Camera Portfolio

### ZenduCam ADAS D+2

ZenduCam ADAS with 4 channel configuration

Next Generation 4 Channel Dashcamera for High Performing Customers

#### Risk Detection

Built-in ADAS and DCS along with 6-axis gravity sensor, supporting AI event detection

### ZenduCam ADAS S+2

ZenduCam ADAS with 3 channel configuration

Next Generation 3 Channel Dashcamera for High Performing Customers

#### Risk Detection

Built-in ADAS and DCS along with 6-axis gravity sensor, supporting AI event detection

### ZenduCam ADAS D+1

ZenduCam ADAS with 3 channel configuration

Reliable 3 Channel Dashcam with Advanced DMS Capability

#### Risk Detection

Built-in ADAS and DCS along with 6-axis gravity sensor, supporting AI event detection

### ZenduCam LITE D

ZenduCam Lite D with Dual Channel Configuration

Affordable and Powerful Dual Channel Dashcam

#### Risk Detection

6-axis gravity sensor for real-time harsh driving and accident risk detection

### ZenduCam LITE S

ZenduCam LITE S with Single channel configuration

Affordable and Powerful Single Channel Dashcam

#### Risk Detection

6-axis gravity sensor for real-time harsh driving and accident risk detection
